

# SUCCE22 Advisory

Week 40: 06.01.2020

## SUCCE22 Announcements

### **The End to Sophomore Year is Here**

With finals this week, we come to the end of another school year. This year challenged you in ways none of us ever expected but through it all, your resiliency has shined through. We hope you take this summer to regroup, to reflect, and come ready to take on whatever Junior has in store for us. You are strong and are one step closer to the end. Good luck with finals!

We are Team Succe22.

### **Summer School**

If you did not pass a class this year, you will be required to attend summer school. Helix will not be hosting summer school this year but there are other programs that will still be offered. Make sure to plan with your family accordingly.

If you have questions regarding summer school, please contact Mr. Gonzalez and Ms. Lopez.

**Make sure to complete your summer registration!**

## Yearbook Signing

We are excited to announce that the Helix yearbook signing tradition is alive and it's fully digital to suit our socially distanced students.

Jostens has just launched a new platform, Yearbook Digital Signing Pages, that gives every student in our school the chance to create virtual signing pages, invite their friends to leave messages, and print out the final pages to keep with the yearbook as a permanent keepsake. This is free for every student whether they purchased a yearbook or not.

Once you have signed up it will give you a link to share with your friends and they can digitally sign your book.

Sign Up today! <https://yearbooksigning.jostens.com/home>

We are still waiting on the arrival time for the books. We hope to be hearing really soon on just when they will get here. Like always keep checking your emails for updates.

## GENup Leadership Opportunity

GENup is a student-led, student-run advocacy organization primarily striving for youth representation in key policy efforts through the power of youth voices in the California education system. We are a diverse group of student activists, organizations, and clubs that have united to advocate for student concerns. GENup strives to unite diverse student communities into a "Generation Upward" movement that pushes for tangible legislative change in education.

GENup envisions inclusivity, cohesive organization, a California that is mindful of student concerns, and state-wide student advocacy. In order to achieve youth-leadership in California education reform - GENup envisions a CA network as follows: a statewide web of GENup chapters covering all school districts that work closely with their student school board members to push for tangible education policy change through a combination of community organizing, youth activism, and policy campaigns. The GENup chapter serves to organize the community around the policy or campaign while the student board member serves to be the policy leader of the effort - this allows actionable results by exerting pressure on two fronts: garnering community support around policy authored and advocated for by students.

They are currently looking for students from Helix Charter High School to fill various positions on our executive team. Attached are the [application](#) and [position descriptions](#). Whenever you have the time, would you please promote this with your student body? Our first project is a webinar regarding Education and the COVID-19 Pandemic thus; we would like a lot of student support for this.
